

2 Days Intensive Online Training Course on

MS 2692:2020

TESTING AND COMMISSIONING OF GRID – CONNECTED PHOTOVOLTAIC SYSTEM

6-7 SEPTEMBER 2021

**Register NOW!
Limited seats
20 pax/class**

INTRODUCTION

This is an intensive training course to provide guidance on the requirements, procedures and tests for grid-connected photovoltaic system as outlined in MS 2692:2020.

The proliferation of photovoltaic (PV) systems installed in the country has been growing at an encouraging pace. High quality components and installations must always be used and practiced consistently. This is where MS 2692:2020 is important as it describes the minimum commissioning tests, inspection criteria and documentation and most importantly boost users' confidence in the system's reliability before it is handed over to the client. Therefore, it is pertinent that this MS is made known to as many users as possible as it entails safety to all, irrespective of their categories.

OBJECTIVES

- Introduce participants to the new MS 2692:2020
- Explain components and procedures of GCPV system
- Describe the tests involved and documentation of results

WHO SHOULD ATTEND

- Engineers
- Chargeman, Wireman
- Contractors, Service providers
- Technicians, Installers
- Certification bodies
- Project managers
- Qualified persons
- Regulators & Government agencies
- Academia, Researchers

TRAINING FEES:

PACKAGE A

RM 1 000/pax
(inclusive 1
copy of
MS 2692:2020)

<https://bit.ly/3wOa3LY>

PACKAGE B

RM 900/pax
(fee only)

<https://bit.ly/3rhPJ4G>

ENQUIRY:

Ms Azwamiza | azwamiza@sirim.my | 012-3711747
Ms Zulaikah | zulaikah@sirim.my | 019-3343365

**CDP SEDA
& CPD BEM**

** HRDF, CDP & CPD - in application process

COURSE OUTLINE

- ✓ Introduction and overview
- ✓ Pre-commissioning test procedures
- ✓ Testing and commissioning procedures
- ✓ Reliability run test procedures
- ✓ Report template

** Full training program will be given upon registration!

TRAINERS' PROFILE

Prof. Sulaiman Shaari holds a Ph.D. in photovoltaic (PV) systems, M.S. and B.S. in Physics and certified in grid-connected (GC) and off-grid (OG) PV systems design. He is a recognised trainer locally and internationally and has represented Malaysia at many events. He is the Chairman of Working Group (WG) on PV for Malaysian Standards (MS) development; Secretary General of Asian Photovoltaic Industry Association (APVIA); and Vice-President II of Malaysian Photovoltaic Industry Association (MPIA). He teaches as a Professor at Faculty of Applied Sciences, Universiti Teknologi MARA (UiTM), Shah Alam, Malaysia.

Prof. Kehormat Ahmad Maliki Omar holds a Ph.D. in Power Electronics from University of Malaya, M.Sc. in Electrical Engineering from Loughborough University, UK and B.Eng. (Hons.) in Electrical Engineering from University of Malaya. He is active in teaching, training, consultation and research in solar photovoltaic (PV) power system, power electronics and dedicated controller. He has been the Malaysian representative at IEA-PVPS Task 11. He is also the Master Trainer and Examiner for the SEDA competency programme; Deputy Chairman of the Working Group on PV for MS development. He is currently an Honorary Professor at Faculty of Electrical Engineering, Universiti Teknologi MARA (UiTM), Shah Alam, Selangor, Malaysia.
